Re: U.S. Utility Patent Application Serial No. 09/933,861 in the name of Rajesh Bhatia, et al.
for SYSTEMS AND METHODS FOR CONTEXT PERSONALIZED WEB BROWSING BASED
ON A BROWSER COMPANION AGENT AND ASSOCIATED SERVICES;
Our File: BIZ/01-0008

Sir:

Enclosed for filing are the following documents relating to the above-referenced utility patent application:

- Second Request for Correction of Filing Receipt;
- Copy of Updated Filing Receipt dated March 26, 2002;
- Response to Request for Corrected Filing Receipt dated March 26, 2002;
- Original Filing Receipt dated September 24, 2001;
- Filing Receipt of Provisional Application Serial No. 60/227,558 dated November 27, 2000;
- Copy of page 1 of specification of Application Serial No. 09/933,861;
- Self-addressed stamped return postcard; and
- Authorization to charge Deposit Account No. 50-1001.

Respectfully submitted,

Bradley M. Ganz, Esq.

SECOND REQUEST FOR CORRECTION OF FILING RECEIPT

Enclosed for correction is a copy of the original filing receipt for the above-identified patent application. A Request for Correction of Filing Receipt was filed January 22, 2002, because applicant noted that the Domestic Priority data as claimed by applicant was not included on the filing receipt. Applicant claimed the benefit of co-pending US Provisional Application No. 60/227,558, entitled "Browser Companion Architecture", filed on August 23, 2000 in Paragraph 1 of the Application.

We received an updated filing receipt and Response to Request for Corrected Filing Receipt (copies enclosed) denying entry of the priority claim because it was not filed during the required time period as required by 37 CFR 1.55 or 1.78. Applicant notes that 37 CFR 1.55 and 1.78 apply to claims for priority from foreign or PCT patent applications. Applicant is not claiming priority from a foreign or PCT patent application. Therefore, sections 1.55 and 1.78 of the CFR do not apply.

Applicant claims Domestic Priority from U.S. Provisional Application No. 60/227,558, filed August 23, 2000. A copy of the filing receipt of the provisional application is enclosed.

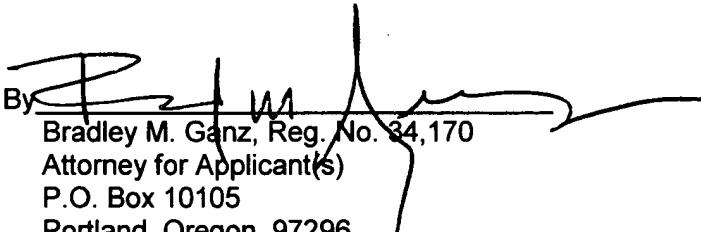

Attention is directed to 35 U.S.C 119(e) which sets forth that the requirements for claiming priority in a nonprovisional application from a provisional application are that the nonprovisional application be filed not later than 12 months from the filing date of the provisional application and must contain a specific reference to the provisional application. The August 20, 2001, filing date of the nonprovisional application is within the 12 month period from the August 23, 2000, filing date of the provisional application. Additionally, specific reference to the provisional application was made on page 1 of the nonprovisional application (copy enclosed).

Please correct this error by inserting the priority date of August 23, 2000 in Applicant's record, and provide me with an amended filing receipt for my file.

If any fees related to this application are due, please charge any such fees, or credit any overpayment, to Deposit Account No. 50-1001.

Dated: April 12, 2002

Respectfully submitted,

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT

Domestic Continuity and Foreign Priority

In response to your request for a corrected Filing Receipt, the Office is unable to comply with the request because:

The priority or continuity claim has not been entered because it was not filed during the required time period. Applicant may wish to consider filing a petition to accept an unintentionally delayed claim for priority. See 37 CFR 1.55 or 1.78. **RECEIVED**
MAY 07 2002

Continuity claimed under 35 USC 120 cannot be added to the Filing Receipt without the applicant supplying the relationship (continuation, divisional, or continuation-in-part) in an Application Data Sheet or amendment to the first page of the specification.

A claim for priority cannot be made based on an application filed after the application making the claim.

Domestic and foreign priority claims will not be captured in a provisional application. A provisional application is not entitled to a right of priority or to the benefit of an earlier filing date of any other application. See 35 USC 111(b)(7) and 37 CFR 1.53(c)(4).

A domestic continuity claim cannot be made to a foreign application and the filing receipt will only list the foreign country, application number, and filing date.

Foreign priority will appear on the Filing Receipt in the following order:
Country, Application number, Filing date.

15 15 **BACKGROUND OF THE INVENTION** MAY 07 2002
Technology Center 2100

1. Field of the Invention

This invention claims the benefit of co-pending US Provisional Application
20 No. 60/227,558, entitled "Browser Companion Architecture", filed August 23,
2000, the entire disclosure of which is hereby incorporated by reference as if set
forth in its entirety for all purposes. This invention relates to accessing data over
computer networks, and more particularly, to accessing information on the
Internet, or World Wide Web (Web) with a personalized browser system. In one
25 embodiment, the information relates to enhancing ecommerce functionality.

2. Background Art

Access to information on the Web is typically accomplished by invoking a
program known as a Web browser. The browser acts as an interface between
the user and the Web, accepting input from the user and obtaining data and
30 services by sending requests to servers or other computers at other locations on
the Web, and retrieving and displaying documents or pages from the Web. Fig. 1
illustrates this scheme. Primary examples of commercially available browsers
include Microsoft Internet Explorer and Netscape Communicator. Many
traditional services and business transactions are now carried out over the Web
